EXT. MOBILE ALABAMA

SLOW AERIAL PUSH IN on Mobile

INT. WOOD CABIN IN THE WOODS

C.U. of flannel, earthy wears, wood panels & cast iron fireplace.

SLOW. A well-aged southern gentleman, RON, 60's, gently glides the log door behind, gets into an outlaw rebel car, firing it up and skidding down dirt road.

RON

(V.O.)

Don't get much more south than Alabama. Having grown up here, some might call me a redneck.

EXT. MOONSHINE DISTILLERY

Flashes of Ron air boating, shooting guns, munching on crawdads & snakes @ a moonshine distillery & doing various Alabama redneck activities.

EXT. MOBILE ALABAMA

Back tire of outlaw rebel car skids from dirt road and grips onto asphalt highway.

RON

(V.O.)

I am though, a learned man of science.

EXT. HOSPITAL

Ron steps out of Tesla in a hospital parking lot.

INT. HOSPITAL

Flashes of Ron treating patients.

RON

(V.O.)

On the Alabama Board of Medical Examiners & such.

Flashes of Ron conducting various doctoring practices.

RON (CONT'D)

(V.O.)

Typical of viewing the south
through a stereotypical lens, so
much is never seen nor expected.

INT. GNOR CHOR ACADEMY

Flashes of Ron & group punching & kicking the shit out of
each other, Kung Fu-ing earnestly.

RON

Some of us have a few
accomplishments.

Flashes of Norris, Wallace, Lewis, etc kicking ass.

RON (CONT'D)

Flash in the pants, cute. But as a
aging man of science, emphasis on
the age, my interest has always
lied with the often mysticized
techniques.

Flashes of Kung Fu movies.

RON (CONT'D)

No, I'm not talking about the
flying through trees, walking on
water, one person chopping and
shooting his way through an entire
army squadron.

Flashes of ridiculousness of Hollywood movies.

RON (CONT'D)

I've always wondered what people in
the past, before the invention of
firearms, did to protect
themselves, loved ones and
property.

Flashes of Kung Fu movie Dim Mak.

RON (CONT'D)

Scientifically.

Footage of sports stars dying from simple strike.

RON (CONT'D)

What's slower, less force but more
effective than a bullet?
